

MRS. WATERS.

THE SECOND DAY OF HER TRIAL FOR MURDER.

The Defense Shows That Her Husband Visited Los Angeles with the Full Intention of Killing Her—How He Treated Her in Arizona.

The trial of Mrs. Waters, who stands charged with having murdered her husband by firing four shots into his body on the night of the 1st of May last, continues to drag out its weary length in Department No. 1 of the Superior Court, before Judge Williams, presiding for Judge Cheney.

The prosecution having rested their case, the defense proceeded to call witnesses on their behalf yesterday afternoon. From the evidence adduced on either side so far, both the defendant and her deceased husband appear to have been a couple fond of inferring and misrepresenting language used by the other.

Indeed, the language used by both is very strong indeed. The defense, however, denied that they possessed a most extensive vocabulary of "cuss" words, which they compounded in a remarkably skillful manner.

The defendant, during the day, from her seat beside that of her counsel, kept her tongue almost continually wagging as she poured into his ear "pointers" regarding the various witnesses put upon the stand by the prosecution.

The first witness called by the District Attorney was G. R. FROLIC.

He testified: "On the 1st of May, last, I was standing in front of the passenger depot about a quarter to 8 in the evening, when I heard four shots fired. I drove my hank across to where the shots were fired, and got there just after the last shot had been fired. I saw a man lying on the ground in front of a little fruit stand, and a police officer who I don't know, and the defendant, who I heard, put the gun to his wife's head, and shot her."

Cross-examined: "I reside near the river, on Aliso street. A young fellow—I don't know his name, he was janitor at the Athletic Club—was on the hank with me at the time.

CHIEF OF POLICE CUDY then took the stand and testified: "I was in my office on the evening of the 1st of May, and, after Waters was examined by a physician, I sent for a woman to search Mrs. Waters. I then had a conference with the defendant, and he told me that the wounded man was her husband, and that he had come to her house and attempted to shoot her; that two men who were in the house hustled him out. She said that she had seen the pistol, which had a white handle. To protect her, I told her that, having shot her in the hank, that, having to go out, she again met Waters, and he then made an attempt to seize her by the hair, when she drew her pistol and fired in self-defense. She did not appear excited while telling her story at all."

MRS. J. DOYLE, who was called by Chief Cuddy to search Mrs. Waters on the night of her arrest, testified: "On the 1st of May last I saw Mrs. Waters about 8:30 in the evening. I remember her telling the Chief of Police about the shooting."

Witness corroborated the Chief in the various statements made by him, after which Thomas Jefferson Smith was recalled for further cross-examination:

"I am a plumber by trade but have not worked for the last eight months."

"Me, I am not."

"What are you for?"

"Well, Your Honor, I didn't come here to be made any show of. I came to give my evidence as a gentleman."

The Court: "Answer the question."

"I am a plumber by trade."

"Do you know what a 'mac' is?"

"No, sir, I don't."

"How have you been supporting yourself during the last eight months?"

"I have been living at home."

"Will you swear that you have not been supported by certain women in this town?"

"Yes, I will."

The Court sustained the objection of the District Attorney to the line of examination adopted by the defense. The witness was retired. The next witness called was LEWIS S. FOSTER,

the special officer in the employ of the Southern Pacific Railroad Company. He testified to having heard the shot fired, and on crossing the street, having found Waters lying on the sidewalk, he ran to the aid of the wounded man into a hank after which he returned to his duty at the depot. Under cross-examination, witness testified to having heard Waters in the earlier part of the day make the assertion that "he would make it G— — — hot for her before morning."

JAMES HAYDON then testified: "I live at 272 San Pedro street, and drive a hank in this city. On May 1st was at the depot, when I heard several shots fired, and on hearing the first report, I drove back across the track to the place of shooting. I was about 30 feet from the curb when the last shot was fired. I saw a police officer with Mrs. Waters, who was pointing at the fallen man and saying, 'There's the — of a —, he came down here to try and take my life.' I saw several men lift Waters up and put him in a hank.

DEN BENJAMIN, a local reporter, testified: "I was at the police station when Waters was lifted out of a hank and brought inside. I was also there when Mrs. Waters was brought by Police Officer Marden. The defendant appeared agitated, and in reply to some questions of mine, she said that she had shot Waters; she hoped he'd die, and she was willing to be hung for it. She said he had lied to her in Oakland, and she left him at Lang's Station. She said that there were several people who were aware of those facts, and could testify on her behalf. She said that Waters had spent all the money she earned, and had cruelly abused her."

Cross-examined: "I am a telegraph operator, and was talking about the telegraph operator saving her at Lang's Station, but I was not on duty at the station that night, and didn't pay particular attention."

JOHN LANG, the proprietor of the hotel at Lang's Station, is station agent and postmaster, and also the office of Justice of the Peace, testified: "I have resided at Lang's Station for 18 years, and knew a family who came there named McCool, but afterwards changed their name to Lang. The man was working for the Southern Pacific Railroad. They lived in the section-house, and very near to my building. They arrived at Lang's in September, 1887, and I think they left about the end of March. I heard Mrs. Waters repeatedly say her husband, John Lang, was a game between his wife and some one else to run him off. He asked her why it was that he never could come home but she must abuse him. The language used by either party was filthy and profane, and I heard Mrs. Waters say that she would kill her husband on sight."

Afternoon Session.

W. D. CURRAN, the police officer who was acting as clerk when Mrs. Waters was brought to the station on the night of her arrest, testified to Mrs. Waters having confessed to shooting Waters and her willingness to suffer the consequences of her act.

John Lang, being recalled for examination by the defense, spoke of the trial of Mrs. Waters at Lang's station, after which

WILLIAM S. LANG, the son of the last witness, testified: "I know the McCools who lived at Lang's station, and I now recognize Mrs. McCool as the defendant now in court. She was well known to me. Mrs. McCool was a widow. Her husband, her frequently abusive husband, saying that she would kill him the first time she got a gun."

Another time I heard her remark some one inside the section-house: 'Just as Waters comes back here again and Tom will do him up.'

Undelivered Telegrams.

There are undelivered telegrams at the Western Union Telegraph office, 6 Court street, for Mrs. Ottile Kaliber, Oscar Kocher, Thomas Dana, Mrs. Maud Sheeley, Mrs. C. Z. Estudillo, Mrs. O. F. THE TIMES has a larger bona-fide circulation than any other newspaper published in Southern California.

Our Premium Organ.

Ladies and others desiring to inspect and test the "Mirror" Premium Organ are invited to call at the Times Building, second floor, where a good opportunity will be given in a quiet room for that purpose.

POINTS OF THE MORNING'S NEWS.

Scenes and gossip among the delegates at St. Louis....Gen. Sheridan again very near death....A great influx of eastern people to California predicted....Eleven lives lost by the burning of a hotel at Rockdale, Tex....E. J. Baldwin's demur to the gambling information overruled at San Francisco....Gen. Boulanger proposes a revision of the Constitution in the French Parliament....Cyclone in North Carolina....Proceedings in Congress....Events on the racetrack....Republicans resort to obstructive tactics in the House....Jeff Davis 80 years old....Atchison officials deny that they have made a deal with Erie....Sale of the wreck of the San Pablo....Preller's murderer to hang July 13th....Yesterday's baseball games....Santa Barbara's disreputable denra raided....An alleged Irish plotter talks with the London police....Death by electricity the penalty for murder in New York....Boiler explosion at Sacramento....Incendiary fire at Nogales, Ariz....The Supreme Court rules that contracts to keep up the price of necessary articles are illegal....Republicans claim victory in the Oregon election....Three men rescued from a Monks mine....Southern Pacific planning a new line from Los Angeles to San Francisco....Arrest of a skillful swindler in New York.

THE CALIFORNIANS are making themselves felt at St. Louis, both politically and socially.

NEW YORK will hereafter "work off" her murderers by the heat but not gaudy process of electricity.

THE DEMOCRATS have White, Gray and Black—appropriate colors for the commencement of a funeral.

PACIFIC COAST Democrats will expect a silver plank in the St. Louis platform, and it will have to be solid silver, not merely nickel-plated.

GEN. SHERIDAN'S condition, the country will regret to learn, is again precarious. Graver fears than ever for his recovery were entertained last night.

A BIG flow of artesian water has been struck at Wilmette. The abundance of artesian water throughout Southern California forms one of our most valuable resources.

THE EFFECTS of the defunct Cosmopolitan Magazine, in which over a quarter of a million are said to have been sunk, were sold for \$700. It does not always pay to be too cosmopolitan.

JOHN SHERMAN'S friends are not doing much boasting, but the Ohio Senator is quietly gathering a strength that will somewhat surprise the effervescent prophets, when it is revealed at Chicago.

AT A late hour yesterday the Republicans claimed Oregon by a good majority. Should this be true, in spite of the heavy Prohibition vote which was expected, it will prove a very encouraging opening for the campaign.

THEY say that Bill Scott brought the Democratic platform with him, neatly printed in pamphlet form, a la camp-meeting song-book, with a copy for each delegate, so that they may join in the chorus of applause at the proper places. Sing, brothers, sing!

ANOTHER MILESTONE PASSED.

THE TIMES entered upon its fourteenth volume yesterday. It is now six and a half years old, its first number having been issued December 4, 1881, as a seven-column folio. Now it is a seven-column quarto. It has undergone five separate enlargements. In the beginning the force employed in the composing-room was five compositors. Now it is from 15 to 20. Then the circulation was barely 700 copies, now it is more than 7000 copies. Then the paper was printed on a slow drum-cylinder press, capable of throwing off, on an average, only about 1000 copies an hour. Now it is printed on a lightning Hoe perfecting press, capable of throwing off 10,000 copies an hour, all printed, cut, folded, pasted and counted, ready for the hands of the reader, the mail, the carrier, or the cheery newsboy. Then its telegraphic budget embraced 1500 words daily. Now it averages 6000 words daily, frequently reaches 10,000, and occasionally 12,000 words daily. Then the small classified advertisements (a good test of a journal's popularity) occupied less than a column of space. Now they generally occupy a page—seven columns—sometimes more. Then the paper occupied circumscribed rented quarters. Now it occupies its own ample quarters in the comely Times Building, a solid, substantial structure of granite, brick and iron, built for and adapted to the business of a metropolitan daily newspaper, published seven days in the week and every day in the year.

Thus will it be seen that we have made some progress in these six and a half years. We are tollers, "stayers" and fighters—fighters for right, good government, the cause of humanity and the progress of the most pregnant and promising section in all this glorious domain that we call the American Republic.

We have the confidence of this people, and rejoice in that confidence. With that, and with the hope and heart it gives, we hold on our chosen way, secure in the achievements of the past and the promises of the future.

THE DEMOCRATIC CONVENTION.

Today the representatives of the country's Democracy assemble in St. Louis to fix up a slate for the Republicans to rub out in November. Much less interest than usual attaches to their convention, owing to the fact that their principal business—the nomination of a President—is and has for some time past been fixed. In fact, they assemble to indorse Cleveland and his policy and to appoint an assistant to him.

The chief interest centers around the Vice-Presidency. Until a few days ago it was pretty generally considered that Gov. Gray would be the man. All at once a cry of "Thurman, the old Roman," was raised. Many who knew the sturdy old Democrat doubted very much that he would agree to run in such company as that of Cleveland. It seems, however, that his consent has been obtained. Representations have been made to him of the need which the party has of such a man as himself, and his party fealty having been thus appealed to, he has consented to run. This, however, does not apparently settle it. Now that Thurman's consent has been obtained, an unexpected antagonism to him has been developed, which, strange to say, comes largely from his own State. His nomination would evidently interfere with the cut-and-dried plans of some political leaders. There would be quite a lively time over the nomination for Vice-President.

AMUSEMENTS.

AT TURNER HALL.—Everybody, whether admitted or not, likes a good minstrel show, and Lewis Dockstader may genuinely be said to have an audience that desirable article. The music was excellent, notably the tenor solo, "The Sailor Boy's Return," sung by E. Davis, and "The Arrow and the Song," sung in Mr. Frillman's powerful bass. "Billy Rice" of the round form, and "Sweatman" of the brilliant wit were there, and Dockstader himself, the hero of many a good joke, original and conveyed.

CLEVELAND and Thurman on the Democratic ticket would make an incongruous spectacle.

"Billy Rice" of the round form, and "Sweatman" of the brilliant wit were there, and Dockstader himself, the hero of many a good joke, original and conveyed.

THE CLEVELAND—Everybody, whether admitted or not, likes a good minstrel show, and Lewis Dockstader may genuinely be said to have an audience that desirable article. The music was excellent, notably the tenor solo, "The Sailor Boy's Return," sung by E. Davis, and "The Arrow and the Song," sung in Mr. Frillman's powerful bass. "Billy Rice" of the round form, and "Sweatman" of the brilliant wit were there, and Dockstader himself, the hero of many a good joke, original and conveyed.

THE CLEVEL

Anderson, Hon. B. F. Butcher, ex-member of the Colorado Legislature, and Owen Carrappon, Surveyor General of the State.

THE PENNSYLVANIANS.

The Pennsylvania delegation met this morning, and, after organizing, took a ballot to ascertain the choice for candidate for Vice-President. The roll was called and Thurman voted for unanimously. It is understood there are some seven members of the delegation in favor of Assistant Postmaster-General Stevenson, but the sentiment of the delegation expressed in informal talk was so strong in favor of the Ohio gentleman that the seven yielded their opinion in favor of that of the majority.

NOT A LOVE FEAST.

The Kentucky caucus proved to be anything but a love feast, and resulted in several surprises. When the meeting was called to order, it was evident that the delegates were much divided in sentiment, the Tennessean and Gray forces in effect balanced, the borderers for their own candidate. When the vote for national committeemen was taken, it was found that H. D. McHenry, who had held the office for 12 years, and who enjoyed almost a prescriptive title to it, had the most dangerous opponent in J. W. Morris, of Evansville, Indiana, the latter being a most enthusiastic Thurman man. Three ballots were necessary to decide the contest, McHenry securing the prize by a vote of 12 to 9. The question of the Vice-Presidency was left unsolved for the time being.

UNABLE TO HITCH.

Dakota's two sets of delegates have been unable to hitch, and are yet totally unable to reach any sort of an agreement.

Illinois had a lively time. When the session cleared away the form of William R. Morris, he was soon cast into the heap. W. C. Goudy of Chicago had attempted to join forces with the friends of Gen. Black for the double purpose of putting Goudy at the head of the Illinois delegation, thus depriving Morrison of any chance of being nominated for the Vice-Presidency, and for increasing the chances of a boom for Black. Morrison adroitly combined with the friends of Gray, and, after a hard fight, defeated the Goudy-Black allies. Morrison was made chairman of the delegation. E. M. Phelps of Chicago, a rival of Goudy, was elected as the representative of Illinois with the National Democratic Committee.

A couple of fierce contests developed at the meeting of the Minnesota delegates. They were over places of national committee, and over the question of who was to notify the President of his nomination. After 17 ballots, every one being a tie, the election was laid over until tomorrow. Mayor Ames of Minneapolis and Mayor Ludwig of Winona were nominated for members of the Notification Committee. Another deadlock then occurring, this was laid over.

CONVENTION NOTES.

Good Telegraphic Facilities—Scenes at the Depot.

ST. LOUIS, June 4.—[By the Associated Press.] The Western Union Telegraph Company's facilities for handling press and other telegraphic business of the convention is most complete. A general receiving office has been fitted up on the main floor of the hall, accessible to delegates as well as to the press and to those upon the platform, from which tubes run to a large operating room fitted up on the floor below, and from which a large number of wires connect with all parts of the country. In addition to this, a pony express will be established between the convention hall and the main office of the company for use in case of necessity. The company will send out bulletins covering ballots and important points of the proceedings, which will be given to the public and press free of charge.

SCENES AT THE DEPOT.

Delegates, alternates, political clubs and politicians of high and low degree arrived thick and fast this morning. As early as 7 o'clock the union depot was packed, and at intervals of five and ten minutes regular and special trains have been coming in and emptying their loads of people who come to take part in the play. They all wore badges and nearly all bandanas. The one word on their lips was Thurman. The Chicago County Democracy, the rouquous Club, each headed by a band of music, were the first important arrivals. The Wisconsin delegation came next, followed by the Hendricks Club from Lafayette, Ind., wearing "Gray" badges.

The People's Democratic Flame Club joined by the Kansas City Democratic Club, whose arrival was a feature of the morning. Their band was gaily arrayed, and members of the club wore white high hats and yellow linen dusters. Most of them had tied their hair back, and were about their hats red bandanas, handkerchiefs, showing their leaning toward "the old Roman." The Texas delegation got off the train at the end of the depot and comparatively escaped notice. The crowd of spectators stayed about the depot until Tammany arrived, and then the St. Louis Hendricks Association wheeled into line and marched merrily away with Tammany.

A mob of sight-seers trailed at their heels. There was no excitement after that, and the County Democracy, on its arrival soon afterward, saw almost a deserted depot.

HOW THURMAN'S ROOM STARTED.

In connection with Thurman's candidacy the following interesting gossip emanates from high authority: Thurman was not seriously thought of as a candidate until last week, when Secretary Whitney sounded the President and found him favorably disposed toward him. The "old Roman" herefore has been politically unfriendly to Thurman, and was one of the principal factors in preventing his nomination for the Presidency in 1880. Calvin S. Coolidge, the (O.) millionaire railroad magnate, and creditable to the original promoter of the Thurman boom, heads the Ohio delegation. The story goes that Bryce has his eyes on the Senatorial seat occupied by Senator Payne.

The same people are friendly to Bryce, but the latest news is that the "old Roman" is the friend that he never could reach in Senate as long as Thurman lived. In order to conciliate Thurman and shelve him as a Senatorial aspirant, Bryce persuaded Secretary Whitney to come out for Thurman, and that the "old Roman" is said to have been won to this view.

In the Massachusetts caucus Frederick O. Prince was nominated to succeed himself, but his resignation was announced and Charles D. Loomis was elected.

THE WILBUR LINE PROGRESSING.

SAN DIEGO, June 4.—A meeting of the directors of the Wilbur line was held this afternoon to consider the future operations of the company. From what could be learned from the proceedings, it would appear that the directors are preparing for a vigorous campaign in the San Joaquin Valley. The directors have agreed to submit to the public at once the selection of the most available route through the southern part of the State to a connection with the Atlantic and Pacific. The company has already made four surveys to the day of San Francisco by different routes.

AN OLD-FASHIONED INDIAN FEUD IN NEVADA.

CARSON (Nev.), June 4.—[By the Associated Press.] William Zitlin, while prospecting in the hills near Sheridan on Saturday, came across "Mudge," an Indian who a few weeks ago killed three Indians to avenge his brother's death. "Mudge" held a parley with Zitlin, keeping the latter covered with a rifle, and said there were 17 more Indians he would have to kill, and it was war to the knife. He was accompanied by an other Indian, and swears he will not be taken alive. The Indians whose lives he has threatened fled to sleep outside the town, but came in at sundown.

OREGON SAFE.

The Republicans Carry the State.

HERMANN Elected to Congress by a Good Majority.

The Legislature Republican on Joint Ballot.

Other Pacific Coast News—An Immense Immigration to California Predicted—Southern Pacific to Build a New Line from Los Angeles to San Francisco.

By Telegraph to The Times.

PORTLAND (Ore.), June 4.—[By the Associated Press.] The Republicans confidently claim the election of Hermann for Congress by not less than 1500 majority. The Legislature is also claimed by the Republicans on joint ballot, but this opinion is largely conjectured. Owing to the length of the ticket, the count is proceeding very slowly. Nothing definite will be known until very late.

Party feeling in today's election ran high.

For the first time supervisors of election were appointed and the United States Marshal appointed 40 deputies to assist them. Twenty persons were arrested for illegal voting during the day. One deputy was arrested for displaying offensive partisanship, and later Chief of Police Parrish was arrested for interfering with a deputy marshal in the discharge of his duty. He was quickly bailed.

PORTLAND (Ore.), June 4.—It is now confidently claimed that Hermann's majority for Congress will be not less than 2000.

The Republicans claim more. Republicans estimate the Legislature at 10 to 14 majority on joint ballot. The count is proceeding very slowly.

THE REPUBLICANS.

NEW YORK, June 4.—The weather at Jerome Park today was fine, and the track excellent.

Three-quarters of a mile—Climax won, Kite Crab second, Choctaw third. Time, 1:17.

Sequence stakes, five furlongs—French Park won by six lengths, Favorable second.

Handicap, one and one-quarter miles—Bonita won, Raymond second, Leilos third. Time, 2:12.

Bronx stakes, one and one-eighth miles—Emperor of Norfolk won, Kentucky second, Donald third. Time, 2:02.

Four hundred yards—Locust won, Goodwin second, Patrocles third. Time, 1:46.

One mile—Golden Reel won, Maia second, Gien Spray third. Time, 1:46 1/2.

TURF TOPICS.

Summary of Events—Emperor of Norfolk Wins Another Race.

CINCINNATI, June 4.—[By the Associated Press.] The attendance at the Latonia races was large. The track was fast and the weather warm.

For 3-year-olds and upwards, seven and a half furlongs—Roi d'Or won, Lora second, Orange Girl third. Time, 1:37.

For 2-year-olds, one-half mile—Benson won, Gypsy second, Wheel of Fortune third. Time, 49 1/2.

For 2-year-olds, one-half mile—Winnings Way, won, Minnie Palmer second, Jake Miller third. Time, 50.

For 3-year-olds and upwards, seven and a half furlongs—Roi d'Or won, Lora second, Yiranza third. Time, 1:39 1/2.

Shot Over won, Marshall Luke second, Parish third. Time, 1:16 1/2.

For 3-year-olds and upwards, one and one-eighth miles—Bonita won, Grisette second, Insolence third. Time, 1:55.

EMPEROR OF NORFOLK WINS.

NEW YORK, June 4.—[By the Associated Press.] Gen. Boulanger took his first step in Parliament today for the revision of the Constitution. He gave notice that he would submit a proposal for revision of the Constitution and would demand urgency therefor. He read a preamble stating that the elections which had produced so many manifestations in his favor compelled him to call attention to the suffering country and the immense crisis which threatens to become very serious. France no longer, he declared, feels the confidence in the future which is necessary to every well-governed country. This statement met with loud dissent.

In the course of his speech Gen. Boulanger said:

"The Republic is now governed by a group of men of affairs pertinent to any country. We are all Republicans, desiring liberty and justice for all. Parliamentarian has excited a culpable cupidity. It has paralyzed the grand will of the Nation. The revision of the Constitution is the effectual way to take the control of the hands of the middle class. How could the minorities last or any national policy be permanent which rested upon parliamentarian divided into groups, pursuing nothing but clique interests. It is notorious that some ministers have drawn money from the public treasury in order to secure electoral votes."

At this point the General was again interrupted by cries of dissent, and the President of the Chamber asked him to withdraw his statement.

Gen. Boulanger declared that he had no intention of attacking the present ministers.

Continuing, he asked whether a President for the Republic was really a necessity, and whether France could not do as well without a President.

The President of the Chamber here advised Boulanger that it was time to bring his speech to a close.

The General, in conclusion, said that France, reconstituted, should promise continuity of her foreign relations. Supported by a powerful army, she would become the best guarantee of the peace of Europe.

M. M. Moles, a credited Boulanger, with a desire to calm the impatience of the electors by the production of his motion, fearing that he would merit the epithet of "Do nothing dictator."

The motion was rejected—377 to 182.

M. Pyat, however, in the fact that Gen. Boulanger had been Colonel of the Versailles Army against the Communists.

M. Cassagnas exclaimed: "You are a Communist; your place is in the convict station."

M. Pyat proceeded, amid the uproar, to demand a vote of voting urgency, in spite of the fact that he was not admiring of Boulanger, who owed his success to Opportunist persecution.

Floquet charged Boulanger with giving utterance to projects for the future when in reality the glory of Boulanger was the only thing discerned.

"My glory equals yours," rejoined the General.

M. Floquet reminded him that at his age, 51, the great Napoleon had died, and he asked, "What chance there was that the Emperor would support the Government."

After the defeat of the motion, the Chamber resolved by a vote of 335 to 170 that the speech of Floquet should be placarded throughout France.

Clemenceau in closing the debate said that he would support the Government.

It was the opinion of the Chamber that what was at stake.

The Republicans unanimously demanded a revision, but were willing to wait until the Government deemed the time opportune.

The motion was rejected—377 to 182.

Sewing Machine.
OUR PREMIUM
HIGH-ARM
SEWING-MACHINE!

TESTIMONIALS:

Following are letters received by the Times-Mirror Company from subscribers who have purchased the Premium Sewing-machine through us:

"GIVING PLEASING SATISFACTION." J. W. Rose, Pasadena, writes: "The Times-Mirror Sewing-machine is giving perfect satisfaction; in my opinion it is as good as any \$25 machine. I have not done any heavy work on it yet, but I think it will do all right."

"HIGHLY PLEASANT WITH IT." Mrs. Edwin Brown, Los Angeles: "In reply to yours of 28th would state that I am highly pleased with the Premium Sewing-machine I received with the MIRROR. Given every satisfaction; is easy to learn how to manage; does much excellent work; in fact cannot praise it too much and would not take twice the amount it cost me."

"THE MORE WE USE IT THE BETTER WE LIKE IT." Mrs. S. A. Ware, Pasadena: "I have used your sewing-machine since last July. The more we use it the better we like it. On fine and heavy work it is splendid. We have tried the attachment. In fact it goes ahead of our advertisement so far."

"MAKE IT BETTER THAN THE \$15 SINGER." Joseph Wilson, Los Angeles: "The machine gives entire satisfaction. My wife likes it better than the \$15 Singer that it has replaced."

"GIVES GOOD SATISFACTION." S. W. True, East Los Angeles: "We have the High-Arm Machine and use it for light family sewing. It gives good satisfaction."

"RUNS SMOOTH AND SEWS EVERYTHING BUT BUTTONS." William P. Wade, Los Angeles: "The report of the chief engineer of the sewing department of my firm is that the machine is in every respect equal to the best in the market. The machine is light and has given entire satisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttoning. When the freight is paid to Los Angeles by the Times-Mirror Company the price is \$25.50."

"TRYED 'EM ALL AND LIKES THE MIRROR MACHINE BEST." William L. Price, 218 Temple street, Los Angeles: "My wife tried several \$15 machines, and chose the Mirror Premium Sewing-machine as an equal to the best in the market, for on fourth of the money. It is perfect in all particulars, and admired by all who see it. My wife has been using it several months, and we both cheerfully recommend it to the public as represented."

"SAVED IN WORKMANSHIP AND MATERIAL AS THE HIGH-PRICED ARTICLE." C. E. Spencer, Los Angeles: "Having sold hundreds of the Remington Sewing-machines for \$25, which you are now offering with the Premium Machine at \$25.50 when freight is paid to Los Angeles, I can assure you that the machine you offer is identically the same as the high-priced article, both as to material, workmanship and capacity. Being a resident here and an experienced sewing-machine man, I will take pleasure in instructing any one in working the machine, in this place or vicinity."

"IS DELIGHTED WITH IT." Mrs. J. W. Stringfield, Pomona: "The High-Mirror Sewing-machine came in good time, in excellent condition, without scratch or blemish, and I am delighted with it. We believe the machine is all that you recommend it to be, and think it a rare opportunity for those who may want a machine to get a first-class one cheap."

"PERFECT IN EVERY RESPECT." Mrs. E. C. Cranston, Norwalk: "The High-Mirror Premium Machine arrived in prime condition, and is perfect in every respect. Freight \$2.50 with first cost added, making \$25.50 for as good a machine as is usually sold through agents for \$25. Well pleased. \$25.50 when freight is paid to Los Angeles."

"VERY MUCH PLEASED WITH IT." Mrs. Martha Allison, Downey: "I am very much pleased with my machine as far as I have used it, and feel safe in saying that I have just as good a machine as if I had given \$25 for it. Shall advise any of my friends to try this before buying any other, as I think it is fully as good as represented."

"RUNS LIGHT AND EASY—DOES ITS WORK WELL." S. M. Shaw, Pasadena: "I can say in regard to the machine that it is well liked. It runs light and easy, and does its work well. It is a very cheap machine at the price you furnish."

"EQUAL TO THE BEST SHE EVER USED." William T. Parcell, Compton: "The High-Arm Sewing-machine ordered from your company was received in good order, and Mrs. Parcell says it is equal to the best of any other kind she has ever used."

"PROVERB SATISFACTORY." W. F. Bowley, San Gabriel: "The sewing machine we have received through your office proves satisfactory."

"WIFE THINKS IT THE BEST SHE EVER USED." J. W. McLean, Tuttin City: "We received Premium Sewing-machine through your office, and my wife thinks it the best she ever used; consequently all pleased."

"SUPERIOR IN SOME RESPECTS TO THE BEST." S. A. Mattison, Los Angeles: "My wife and daughter are well pleased with your Times-Mirror Sewing-machine. They have used several of the best makes of machines, and yet say your machine is superior in some respects to those they have used. There is no way to tell, but we are at a standstill as to many, and doubt that this is too cheap to be first-class, but are now satisfied that it is as good as machines costing three or four times as much."

"TIGHTENED THE SCREW AND SHE RUNS ALL RIGHT." L. Myers Marshall: "Yours of the 1st inst. received, and I am very pleased with the machine. I discovered the cause of the trouble. The little tension screw in the shuttle had worked loose and was nearly out, and that caused the trouble. I took the shuttle out on the crew and back, I tightened the screw and it now works like a charm; no more breaking thread or irregularity of stitch."

"ONE OF THE BEST INVESTMENTS THEY EVER MADE." Mrs. H. L. Shaffer, Orange: "We received the High-Arm Sewing-machine in good order, and I am very much pleased with it, and consider it one of the best investments we ever made. It is a finely finished, well-made machine, and light and easy to use. Any one who has a good machine I do not think can do better than invest \$25 in the machine and MIRROR, for \$25.50 when the Company pays freight to Los Angeles."

"MORE THAN SATISFIED AND GLADLY RECOMMENDS IT." Martha M. Shaffer, Orange: "I thank you for sending to me the Premium Sewing-machine. I set it up in the parlor without ever threading it, as I was very busy and had a good machine ready for work and used to run it. So I did not take time to get it in order, but the machine is now in the parlor, and I am more than satisfied with it. I have not run it to test it, I was more than satisfied with the machine, and I am sure it is a good machine. I do not think it is the best machine now on the market."

"EQUAL TO ANY \$25 MACHINE." Mr. A. W. Worm, Los Angeles: "For the benefit of those who stand in need of a good sewing-machine, I will say that after using the Premium Machine for several months, I find it equal to any \$25 machine I have seen."

THE PREMIUM HIGH-ARM

Light-running and noiseless, uses A STRAIGHT, SELF-SETTING NEEDLE, and makes the double-thr'd "Lock Stitch." It is the perfection of mechanism for hemming, fellings, binding, cording, braiding, seaming, tucking, ruffling, gathering, embroidery, hemstitching, quilting, etc.

The woodwork is unique and attractive—style and substantially made from well seasoned and carefully selected material. Its elegant finish and rich trimmings are in good taste, and harmonize with the work of the machine.

Far more handsome and ornamental than the ordinary style of woodwork, it is at the same time of equal durability, utility and good finish.

WARRANTY—The usual five-year warranty is given to us by the manufacturers, and we in turn guarantee every machine to give full and entire satisfaction.

NO RISK WHATEVER.

For great is our confidence and knowledge of the superiority of the PREMIUM HIGH-ARM that we further agree with every purchaser to REFUND THE MONEY in case full satisfaction is not given by the machine in every particular after a month's trial.

Tailors, Dressmakers, Seamstresses, manufacturers of clothing, shirts, skirts, corsets, umbrellas, etc. will find one of its best recommendations is its special adaptation to their wants and range of work.

The automatic Tension,

When once properly regulated, will rarely need to be changed, and as a general rule, the machine can be done without any change of tension whatever. This result is obtained by nicely adjusted springs, that will accommodate themselves to the size of thread used.

OUR CLAIMS FOR SUPERIORITY

ARE AS FOLLOWS:

A Device whereby the bobbin can be wound without running the machine saves the unnecessary wear of the machine and the trouble of unthreading and remaking work and attachments while the bobbin is being wound.

A Scale for Regulating the length of stitch, which enables the operator to readily ascertain the length of stitch without testing previous to commencing work.

A Spring-Tension Cylinder Shuttle, holding a bobbin that carries a needle and a thread, the most easily threaded of thread. There is but one hole to thread through, making it the most easily threaded shuttle in use. The tension may be changed without removing the shuttle from the machine.

The Double Feed Extends on both sides of the needle and permits a greater variety of work than any other. It has great power and never fails to perform its duty—will sew the lightest and heaviest goods with equal precision, and will cross seams and hard places without cutting or breaking the thread.

Light Running. On account of the simple mechanical devices eminently designed in its construction, and is almost noiseless. It is the simplest, EASIEST OPERATED, best made and most elegantly ornamented machine in the world, combining every requisite to produce perfect work.

Inviting a practical test of this machine, we distinctly claim for it a great superiority in work, material, workmanship, and in its performance. It is unquestionably the most popular machine now on the market.

THE OUTFIT.—

Each machine is supplied with the following outfit: One Hammer and Feller (one piece), Two Needles, Six Bobbins, One Quilting Gauge, one Screwdriver, Oil Can filled with oil, Cloth Gauge and Thimble, and a Book of Instructions. The following extra attachments are also furnished free: Muller, Tucker, Binder, Set of Wide Hemmers and Shirring Plates.

The book of instructions is profusely illustrated; and answers the purpose of a competent teacher.

BUSINESS.

Stocks and Bonds.

By Telegraph to The Times.
NEW YORK, June 4.—Money on call easy at 1½@2 per cent.; closed, offered at 1@½ per cent.

Prime mercantile paper, 4@5.

Sterling exchange quiet but steady at 4½@5 for 60-day bills; 4½@5 for demand.

NEW YORK, June 4.—The stock market was again intensely dull, and, while strong in the first hour, the last half hour was quite weak, and the market was somewhat feverish throughout the day. Only three stocks, however, made any pretensions to animation—Reading, Union Pacific and St. Paul. Nearly everything is slightly higher this evening, and Pullman gained 1½, Northern Pacific 1%, and Chicago, Burlington and Quincy 1 cent. St. Paul and Duluth lost 1 cent.

Government bonds were dull but firm. Mining shares were dull.
